Saef Alhindawi

AI Operations & Knowledge Base Specialist | AEM | Prompt Engineering

Amman, Jordan saef.alhindawi@outlook.com +962 78 897 5366 linkedin.com/in/saef-al-hindawi

Profile

AI Operations and Knowledge Base Specialist with 4 years of experience at Samsung Levant (via Crystel.co), spanning customer experience, content management, and generative AI operations. Manages AI-ready knowledge bases used by AI search (RAG), builds generative AI assistants in Google NotebookLM with custom prompts, and publishes localized support content in Adobe Experience Manager (AEM). Mechanical Engineer applying Six Sigma to cut process waste and improve content accuracy.

Professional Experience

Crystel.co | Samsung Levant *Apr 2024 – Present*
Content Admin & AI Operations Specialist **Amman, Jordan**

- **AI Knowledge Base:** Manage the Sprinklr knowledge base content used by AI search (RAG), restructuring articles into an AI-friendly layout so the AI retrieves accurate solutions for agents.
- **AI Assistants:** Built 2 generative AI assistants in Google NotebookLM for a low-budget client: created the source knowledge base and wrote the prompts defining what to answer and what not to; used by agents on live calls.
- **AEM Support Pages:** Create, publish, and manage support pages in Adobe Experience Manager (AEM) and HTML, structured for AI search (Google AI Overviews) and SEO.
- **Localization:** Lead website content localization across Levant markets, keeping technical writing consistent and compliant with local requirements.
- **Six Sigma:** Mapped end-to-end service workflows and user journeys, removing bottlenecks and reducing process waste.
- **Content Quality:** Increased content accuracy by 70% by applying the COPC approach to the content intake process with the Quality Assurance team.
- **Technical Content:** Write troubleshooting guides, training material, and FAQs for Samsung.com, and moderate the Samsung Community platform.

Crystel.co | Samsung Levant *Nov 2022 – Apr 2024*
Customer Experience Specialist **Amman, Jordan**

- Delivered tier-2 technical support and diagnostics for smartphones, TVs, and smart home appliances.
- Selected as VIP Service Advisor for the FIFA World Cup 2022, managing high-volume inquiries, issue resolution, and customer care logistics.
- Earned Digital Services Team awards in 4 consecutive quarters (Q2 2023 – Q1 2024).

Fine Hygienic Holding *Jul 2022 – Nov 2022*
Process Engineer Intern **Amman, Jordan**

- Wrote Standard Operating Procedures (SOPs) and technical manuals to support continuous improvement on manufacturing lines.
- Performed A3 equipment validation and operational qualification on paper mill machinery under the Integrated Work System (IWS).
